END OF PART 1

Dear Editor:

I just finished reading your story, "No Witnesses in Outer Space," and I thought it was terrific! Usually I take a long time to write in about something, so you can imagine the impression it made on me. I think both Lois Lane and Lana Lang fans were getting tired of the guessing game—which one does Superman love? To those who always thought of the Man of Steel as an emotionless, egotistical computer, the secret look you gave us into his innermost thoughts must surely have proven otherwise. I don't expect a marriage for quite a while, though. Superman is too popular as a bachelor. But I am glad that Lois knows Superman loves her, and that she is the girl he wants to marry. This and the preceding issue, "Splitsville for Lois and Superman," have made the most monumental changes in Lois' life. They will go on my shelf of comic classics.

—Donna Gisolo, Blanford, Ind.

(Thanks a heap, Donna. We could easily fill this page with rave letters on that issue, but why bother, when you've said it all? Besides, it seems there are some readers who were not exactly enchanted by the revelation of Superman's affection for Lois. —Ed.)

Dear Editor:

In answer to Morty Frodin's recent letter protesting that the fashions of today's girls aren't feminine, I would like to say that the reason is that the boys are not masculine. Why should girls dress up in feminine clothes when boys are looking more and more like girls? I would rather see pale lipstick or thick makeup on a girl than see a boy with shoulder-length hair. As soon as boys start looking like men, maybe girls will start looking like ladies!

—Marilyn Marsh, Woodland Hills, Calif.

(Well, at least we can promise Superman won't show up with shoulder-length locks—not as long as he stays under a yellow sun, where his hair doesn't grow.—Ed.)

Dear Editor:

Lois has really climbed from a sort of weak, Perils-of-Pauline-type comic to one of the best on the market. The reason? Lois is a human being with human, if somewhat magnified, problems. Her love for the Man of Steel is still the weak chink in her somewhat imposing armor: she is capable, kind, trustworthy, queenly, efficient, and usually practical. Despite the fact that she's become a very influential factor in a world where people can fly and run around at super-speed, she remains a non-super heroine, retaining all those nice qualities that made her "Girl of the Year" in her home town once. Yet, at the same time, she is able to show jealousy, hatred and momentary weakness. Lois is a *human* human. However, putting off her marriage to Superman has become infuriating and tiresome. Lois will rapidly lose her humanity if something isn't done soon. Let's have Lois marry Clark, change the mag's title to SUPERMAN'S WIFE, LOIS KENT, get rid of Lana Lang (or give her her own mag as INSECT QUEEN), and you'll be all set.

—Rand B. Lee, Roxbury, Conn.

(All set for what? As a target for more brickbats from the Committee to Draft Lana Lang as Superman's Wife? —Ed.)

Dear Editor:

Concerning your story, "Get Out of My Life, Superman," I have a few corrections. (1) I doubt a hospital will ever get "too many applicants" for a nursing job. With the current nursing shortage, any hospital would be happy to see a line as long as that in the story. (2) Even if Lois had the same blood type as Rand Kirby, were the Rh and the subtypes the same? Also, a type and cross match must be made before blood is given. (3) When the doctor asked Lois for a hypo of sodium pentathol, he didn't tell her the dosage. How did she know how much to prepare?

—N. Calamia, Student Nurse, Detroit, Mich.

(At last we know the reason for the nursing shortage! Most of the young nurses are trying to get jobs at one overstaffed hospital in Coral City! As for the details of Lois' job—just chalk that up to the fact that the writer and the editor have never been nurses.—Ed.)

Dear Editor:

I have an idea how to stop this fighting about whether to give Lana her own magazine. Change the name of LOIS LANE to L.L. Fans of the marvy reporter can refer to it as LOIS LANE, and it can be known as LANA LANG to fans of the red-headed chick. Those who don't care, as long as there are stories about the cool girls, can call it LOIS & LANA or vice-versa. How about it?

—Sherry Stern, Vista, Calif.

(It could cause a lot of confusion. If we featured Lex Luthor in a story, some people might think it's his mag. The same could go for Lightning Lad, Lori Lemaris, or anyone "L's" with those initials. —Ed.)

Dear Editor:

Boy, you really did it this time! In LOIS LANE No. 81, I mean. On page 21, you show Lois lifting Superman. This would be impossible for her unless she had superpowers.

—Chuck Northam, Fremont, Ind.

(Aw, come on, Chuck! You must be pulling our leg! We thought everyone knew that in outer space, where the scene took place, people are *weightless!* That includes Superman, too! —Ed.)
